Notes: Matching between intended and destination occupation occurs at the major group level. Excludes those from the ACE sector and unknown intended ANZSCO.

(a) Calculated at 4-digit ANZSCO level by comparing skill level of intended occupation and skill level of occupation after training.

* Relative standard error greater than 25%; estimate should be used with caution.

** Fewer than 5 respondents in cell.

Total	37.8	24.8	670 270

Notes:

1. 'Match at major group' excludes those from the ACE sector and unknown intended ANZSCO.
2. 'Match at sub-major group' is a subset of (1). Additionally, matching between intended and destination occupation occurs at the sub-major group level. Excludes those from the ACE sector and unknown intended ANZSCO.

* Relative standard error greater than 25%; estimate should be used with caution.

** Fewer than 5 respondents in cell.

Table 25 Employment status, skill level and occupational match by intended occupation - module completers

Intended occupation of training activity	Not employed in intended occupation					N
	Employed in intended occupation	Employed at same or higher skill level ^(a)	Employed at lower skill level ^(a)	Employed at unknown skill level ^(a)	Occupation after training unknown	
	%	%	%	%	%	
Managers	24.2	13.8	60.0	0.0	2.1	55 330
Professionals	31.8	7.2	58.0	0.0	3.0	40 740

Notes:

1. 'Match at major group' excludes those from the ACE sector and unknown intended ANZSCO.
2. 'Match at sub-major group' is a subset of (1). Additionally, matching between intended and destination occupation occurs at the sub-major group level. Excludes those from the ACE sector and unknown intended ANZSCO.

* Relative standard error greater than 25%; estimate should be used with caution.

** Fewer than 5 respondents in cell.

Table 34 Matches between intended and destination occupations for graduates who were younger new entrants and are employed, by selected training packages

Training package	Match at major group	Match at sub-major group	N
