Getting to know NCVER

National Centre for Vocational Education Research
The National Centre for Vocational Education Research (NCVER) helps promote better understanding and discussion within the vocational education and training (VET) sector, and assists policymakers, practitioners, industry, training providers, and students to make informed decisions.

We are the national professional body responsible for collecting, managing, analysing and communicating VET research and statistics.

NCVER is an independent, not-for-profit body owned by the Commonwealth, state and territory ministers responsible for training.

Our board of directors have experience across government, industry, unions and training providers and our staff offer expertise in research, data analytics, public policy, economics, sociology and education.
The VET sector plays a critical role in creating a productive and skilled workforce. Our information and services support this by helping our clients to:

**What we do**

- Conduct and manage **research** under a set of national research priorities as determined through the Skills Senior Officials Network Research Working Group.
- Coordinate the national VET administrative **data** collections and surveys.
- Manage the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS) and **support** registered training organisations to report their activity.
- Undertake **consultancy** research and analysis services to help clients address specific information needs.

**Why we do it**

The VET sector plays a critical role in creating a productive and skilled workforce. Our information and services support this by helping our clients to:

**Government**
- build an efficient and effective VET sector
- monitor, review and evaluate VET policy and programs
- understand training participation and outcomes.

**Industry and business**
- strategise for emerging labour market and skills issues
- understand training trends and outcomes at industry and occupational levels.

**Educational providers**
- understand the VET marketplace and their place within it
- deliver high-quality training
- improve the efficiency of data reporting processes.

**Students**
- make informed decisions about their training options
- access their training records through the unique student identifier (USI) transcript service.

**Where to find it**

Our online Portal is the primary location for all of our data and resources. Visit us at [ncver.edu.au](http://ncver.edu.au) for access to our extensive range of research and statistical products, including a hub dedicated to supporting registered training organisations (RTOs).
We undertake and deliver objective and valued research to inform national VET policy and practice.

We coordinate our research agenda through the Skills Senior Officials Network Research Working Group.

Research products
ncver.edu.au/research-and-statistics
Our research is available in many different formats depending on the topics being explored. From traditional summaries, papers and reports, to more innovative and interactive products like dashboards, infographics and visualisations, our research products are designed to engage, inform and influence all participants in Australia’s VET sector.

National research priorities
ncver.edu.au/research-and-statistics/national-research-priorities
Learn more about the research priorities that guide our work.

Current research
ncver.edu.au/research-and-statistics/research-projects
Find out what research is currently in progress.

Consultancy services
ncver.edu.au/research-and-statistics/consultancy-services
We provide a professional research and evaluation service to Australian and international clients. We consult in areas such as the training needs of diverse groups, analysis of industry skill requirements, and research into a range of national training policy and practice issues.
VOCEDplus is an online international database of tertiary education research, policy, practice and statistics.

This comprehensive database contains over 80,000 Australian and international records of tertiary education research and published statistics. You can also submit documents for inclusion. See voced.edu.au/content/about-vocedplus for details.

**VET Knowledge Bank**
[voced.edu.au/vet-knowledge-bank](voced.edu.au/vet-knowledge-bank)
Provides a complete picture of Australia’s complex and diverse VET sector, the VET Knowledge Bank contains a suite of custom products, including a VET sector overview, policy timelines, landmark documents and more.

**Glossary of VET**
[voced.edu.au/glossary-vet](voced.edu.au/glossary-vet)
The language of VET is complex and particularly prone to jargon and acronyms. This glossary is a useful resource for understanding key concepts and acronyms used in VET in Australia.

**Pod Network**
[voced.edu.au/pod-network](voced.edu.au/pod-network)
Provides a single entry point to relevant, quality collections of research and resources. These collections are presented within themed ‘Pods’, with more specific sub-topics presented within smaller Pods called ‘Podlets’.

**Ask a librarian**
[voced.edu.au/content/ask-librarian](voced.edu.au/content/ask-librarian)
If you require information on a specific topic, our research librarians can conduct a literature search on your behalf.
NCVER manages four national data ‘collections’, each covering different aspects of VET in Australia.

NCVER’s national collections collate and summarise data that training organisations are required by law to submit to us under the AVETMIS Standard.

**Students and courses**

The National VET Provider Collection is the data source for the following publications:
- *Total VET students and courses*
- *Government-funded students and courses.*

This collection provides a summary of Australia’s VET system (delivered via both public and private providers) including statistics relating to students, participation, courses and qualifications.

Data from this collection supplies the training activity for the unique student identifier (USI) transcript service.

**Apprentices and trainees**

The National Apprentice and Trainee Collection provides a summary of the training activity of all apprentices and trainees employed under a training contract. Data are released on a quarterly basis.

**VET in Schools**

The National VET in Schools Collection contains information about students undertaking nationally accredited VET as part of their secondary school certificate. Data from this collection also supplies the training activity for the USI transcript service.

**VET funding**

The National VET Funding Collection provides government funding information about Australia’s public VET system, and provides insight into who provides the funding, what is funded and who benefits from it. The collection includes direct and indirect government funding for VET, including government assistance to employers for workforce training and apprenticeship employment.
NCVER also conducts surveys of VET students, youth and employers to further complete the picture of Australia’s VET system.

Surveys are used to collect data from various groups voluntarily.

**National Student Outcomes Survey**

This is an annual survey of Australian VET graduates and subject completers, and international onshore graduates, aged over 18 years. Participants are sourced from the National VET Provider Collection to gather information on their reasons for undertaking training, employment outcomes, further study patterns, satisfaction with their training, and any reasons for not continuing.

**Employers’ use and views of the VET system**

This biennial survey of Australian businesses collects information about their engagement and satisfaction with the VET system and the various ways they use it to meet their skill needs. The results are published as ‘Employers’ use and views of the VET system’, with information available at national, industry, business-size and state levels.

**Longitudinal Surveys of Australian Youth (LSAY)**

For over 20 years the LSAY program has surveyed more than 60 000 young people, from their mid-teens to their mid-20s, as they move from school to work, further study and other destinations.

This comprehensive dataset is an important evidence base for youth policy and research, providing an understanding of young people’s key transitions and pathways.

A number of LSAY data products, research reports and datasets are available at lsay.edu.au/data.
Data services
ncver.edu.au/data-access
NCVER has a number of data products and services that may meet your data needs. If the data you require is not available from any of our published products, we may be able to provide you with a customised data solution.

Questions?
If you have any questions or require further information on any of our collections and surveys please email support@ncver.edu.au.

Data privacy
ncver.edu.au/privacy
We take data privacy seriously. For more information, our privacy policy is available on our Portal.
Based on your level of experience, the following products are available on the NCVER Portal.

RTO support

ncver.edu.au/rto-hub

Need help with your AVETMISS reporting? We offer services and resources to help you meet your data reporting obligations.

**RTO Hub**
ncver.edu.au/rto-hub
Visit our RTO Hub for reporting tools, resources and support relating to the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS).

**AVETMISS Validation Software**
avs.ncver.edu.au
The AVETMISS Validation Software (AVS) is a free online file validation and data submission system designed for training organisations and agencies to validating and submitting data to the national VET collections.
Updates to USI transcripts by RTOs are also facilitated via AVS.

**AVETMISS client support**
As a training organisation, do you understand your mandatory VET data reporting obligations?
Our online resources available from the RTO Hub can help you to meet your reporting obligations, and assist you in using the AVETMISS validation software to validate and submit your AVETMISS compliant data.
For support with AVETMISS data or any other RTO enquiries, please contact our client support team on:
e support@ncver.edu.au
p 1800 649 452
