Data source: ATO company income and profit data 2013-14 matched with VET providers listed on training.gov.au in 2016

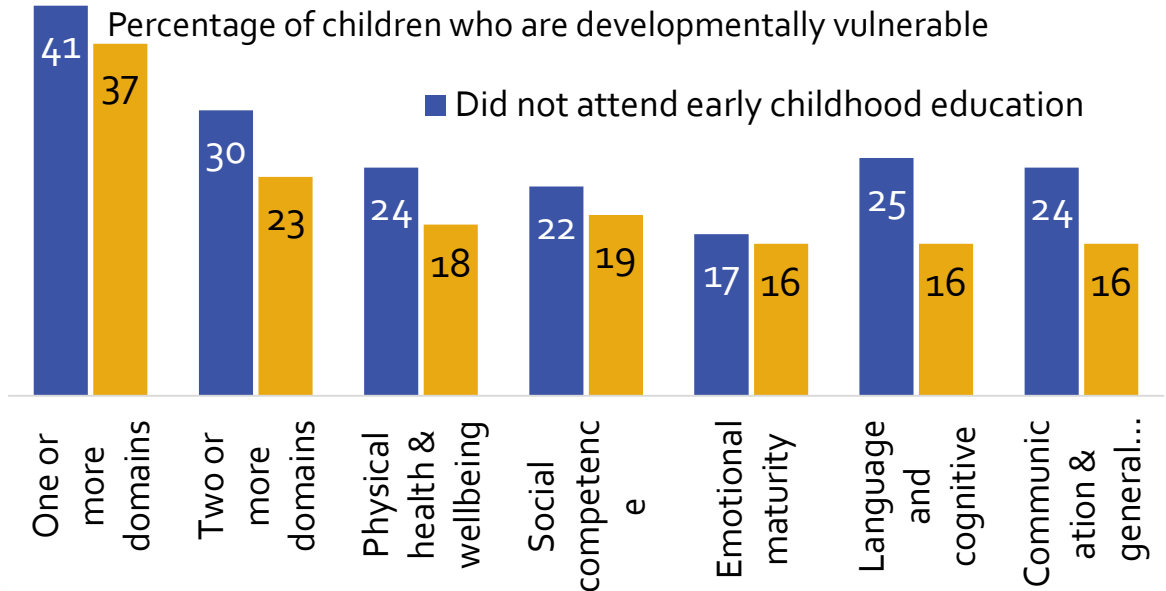

Early childhood education reduces developmental vulnerabilities for Indigenous children

Australian Children's Education & Care Quality Authority

Australian Early Development Census
An Australian Government Initiative

Data source: National Early Childhood Education and Care Collection 2013 and 2014, Australian Early Development Census 2015, National Quality Standard 2013–2015

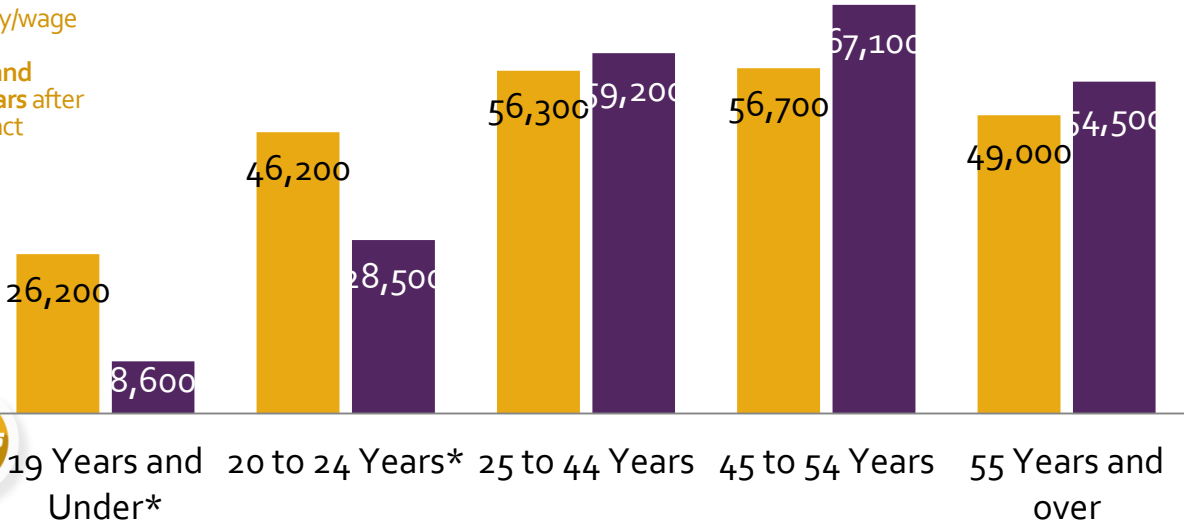

An apprenticeship or traineeship gives young Australians a significant income boost

Average salary/wage income for apprentices and trainees 2 years after end-of-contract

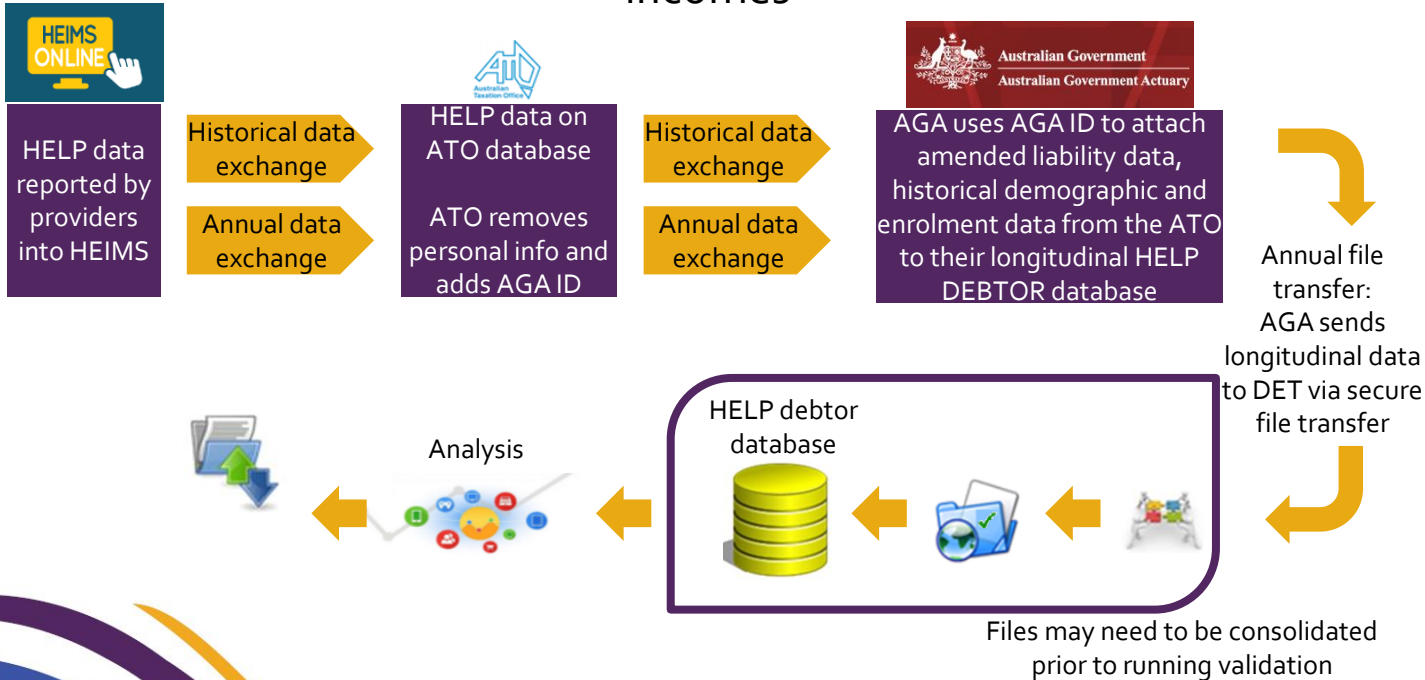

Average reported salary/wage income for all Australians

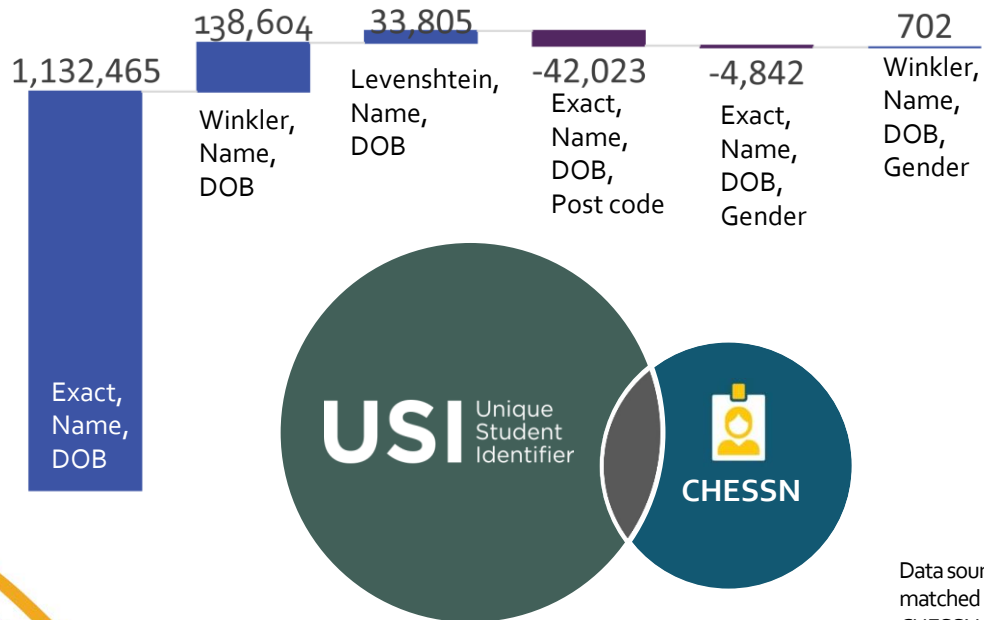

*Age groups for all Australian income data, obtained from the ATO, differ to those presented above. The two youngest ATO age groups are 'under 18 years' and '18 to 24 years'. Data source: ATO salary data 2010-11 to 2014-2015 matched with Training and Youth Internet Management System data and NCVER apprentice and trainee collection

Work is under way to better understand higher education graduate incomes

Defining student pathways in tertiary education

Data source: 2015-17 USI dataset matched with 2005-2016 CHESN dataset.
