# Introduction

---

---

---

## Overview

---

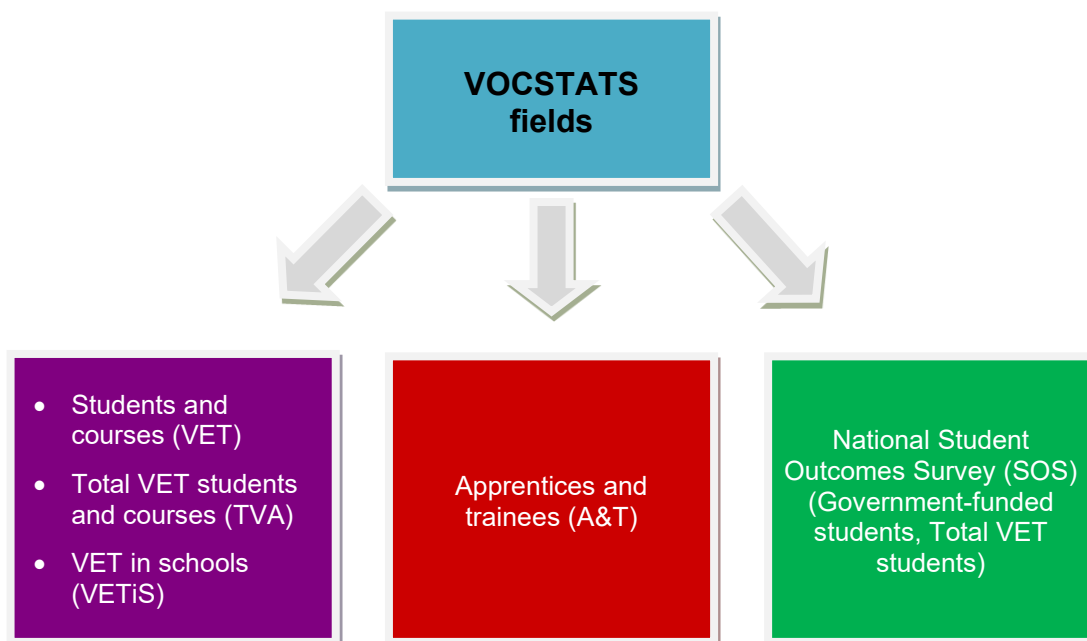

The National Centre for Vocational Education Research (NCVER) has released VOCSTATS, online databases which can be accessed through a web browser. Users are then able to access data from anywhere to create and access reports that matter to them in a dynamic, intuitive, and interactive way.

This document documents all the fields used in the VOCSTATS databases to help users further understand what data is available, where this data is collected from and what the data means. The fields for all collections are listed alphabetically to enable users to easily find information on the field they need.

---

Structure of this document

---

This document includes descriptions of all the fields contained in the 'Government-funded students and courses (VET)', 'Total VET students and courses (TVA)', 'VET in schools (VETiS)', 'Apprentice and trainee (A&T)' and 'National Student Outcomes Survey (SOS)' databases. The field headings have been colour coded to help identify the collection they are included in.

The fields are listed alphabetically and show which collection they relate to. This document may be updated at any time to reflect new fields or changed fields that appear in each collection.

The tables for each of the fields in this document show all/some of the following categories:

<b>Term</b>	The name of the field.
<b>Definition</b>	The meaning of the field.
<b>Classification categories</b>	The default classification view that appears in the fields list.
<b>Classification sub-categories</b>	Classification levels that appear under the default classification view.
<b>Source</b>	Where the data for the field has been collected.

---

Client postcode region

---

**This field is contained in the following database/s:**

Apprentices and trainees (A&T)

**Compared to:**

The 'Client postcode region' is calculated based on the client's postcode of usual residence. This compares to:

**Employer postcode region:**

The 'Employer postcode region' is calculated based on the postcode where the employer is based.

**Workplace postcode region:**

'Workplace postcode region' is calculated based on the workplace postcode.

**Apprentices and trainees**

<b>Term</b>	<b>Definition</b>	<b>Classification categories</b>	<b>Classification sub-categories</b>	<b>Source</b>
<b>Client postcode region</b>	A code that identifies the postcode of the usual residence of the client.	Within state	n/a	Calculated based on the AVETMISS field <i>Postcode[Residential]</i> from the <i>Client</i> file.
		Interstate		
		Outside Australia		
		Not known		

**Note:** NCVER will not release any information that identifies or could be used to identify individual clients.

---

Client remoteness (ARIA+) region

---

**This field is contained in the following database/s:**

Apprentices and trainees (A&T)

**Compared to:**

The 'Client remoteness (ARIA+) region' is calculated based on the client's postcode of usual residence. This compares to:

**Workplace remoteness (ARIA+) region:**

'Workplace remoteness (ARIA+) region' is calculated based on the workplace postcode.

**Apprentices and trainees**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Client remoteness (ARIA+) region</b>	The degree of remoteness of a location in terms of the ease or difficulty people face in accessing services in non-metropolitan Australia.	Major cities	n/a	Calculated based on the AVETMISS field <i>Postcode [Residential]</i> from the <i>Client</i> file.
		Inner regional		
		Outer regional		
		Remote		
		Very remote		
		Outside Australia		
		Not known		

**Note:** Using the Australian Standard Geographical Classification (ASGS), postcodes are assigned to Remoteness Areas based on ARIA+ scores for postcodes.

ARIA+ is an index of remoteness derived from measures of road distance between populated localities and service centres. These road distance measures are then used to generate a remoteness score for any location in Australia.

The ASGS divides Australia into seven Remoteness Areas and is used for collection and dissemination of geographically classified statistics. It groups locations together into comparative classes of remoteness so that data can be collected, analysed and disseminated for broad regions which are more or less remote.

The NCVER will not release any information that identifies or could be used to identify individual clients.

## Client SA2 2011

		Not stated	

**Note:** Derived for the first time in 2025.

---

Count

---

**This field is contained in the following database/s:**

- National Student Outcomes Survey (SOS)
- Government-funded students
  - Total VET students

**Usage:**

The “Count” field is a counting field. It displays the number of respondents for the survey.

**See also:**

**Estimated population**

The National Student Outcomes Survey relies on students replying to the survey. The ‘Count’ field provides a count of the actual number of respondents to the survey. The number of respondents is then multiplied by a weight to create the ‘estimated population’ that has completed a study enrolment. Estimates based on five or fewer respondents should not be reported as they are unreliable.

The ‘Estimated population’ is the default count for the National Student Outcomes Survey database. For example, when this database is opened and a selection of fields added (not from the ‘Count’ option) the data displayed will be that of the estimated population for the survey.

**National Student Outcomes Survey**

---

Estimated population

---

**This field is contained in the following database/s:**

- National Student Outcomes Survey (SOS)
- Government-funded students
  - Total VET students

**Usage:**

This field is a 'counting' field. It is contained under the 'Counting' field in the 'Fields' list.

**See also:**

**Respondents**

The National Student Outcomes Survey relies on students replying to the survey. The number of respondents is then 'weighted' to what is considered the estimated population of students who have completed a study enrolment. The respondents' field provides a count of the actual number of survey respondents for a particular year. Estimates based on five or fewer respondents should not be reported as they are unreliable.

The 'Estimated population' is the default count for the National Student Outcomes Survey database. For example, when this database is opened and a selection of fields added (not from the 'Count' option) the data displayed will be that of the estimated population for the survey.

**National Student Outcomes Survey**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Estimated population</b>	The estimated population for the survey calculated as respondents multiplied by a unique weight for each year.	n/a	n/a	National Student Outcomes Survey

Estimates

**This field is contained in the following database/s:**

Apprentices and trainees (A&T)

**Usage:**

This field is a 'counting' field. It is contained under the 'Counting' field in the 'Fields' list. This is the default 'count' for the 'Apprentices and trainees' database. For example, when opening the 'Apprentices and trainees' database you do not need to select this option, it is automatically selected for you.

**See also:**

**Preliminary**

NCVER is supplied data by the states/territories concerning the number of apprentices/trainees in their respective jurisdictions. The Apprentice and trainee collection is an accumulative collection so not all contracts are reported at the same time for a given quarter. For example, using the March quarter of any year as a start, the reporting of contacts will occur throughout this quarter and continue to be reported in the following June quarter.

The preliminary count displays the apprentice and trainee numbers as they are reported to NCVER and for any given quarter will change as more contracts for that quarter are reported. See: Important note for this field below.

**IMPORTANT:**

Apprentice and trainee figures reported by NCVER are estimated. Figures are estimated as there are often long time lags in reporting information to the states and territories. The main reason for delays has been due to employers and apprentices/trainees not returning necessary paperwork to an Australian Apprenticeship Centre or to State Training Authorities within the reporting period.

**It is recommended that, unless you have a specific reason to do so, you leave this field as is to match published data released by NCVER.**

Group

---

**This field is contained in the following database/s:**

National Student Outcomes Survey (SOS)

- Government-funded students
- Total VET students

**National Student Outcomes Survey (Student attributes)**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Group</b>	Student type used for reporting.	Qualification completers	n/a	National Student Outcomes Survey (Government-funded student and Total VET students)
		Qualification part-completers		
		Short course students		
		Subject(s) only completers		

**Note:**

Data should be analysed separately for each student group via this 'group' variable.

Since 2019, the National Student Outcomes Survey has collected data on students who completed nationally recognised VET delivered by RTOs. The revised survey scope has been applied to qualification completers in prior years.

Due to significant changes in the way student groups are reported from the 2020 survey, time-series information prior to 2020 is not available for some student groups.

In 2025, the *Short course completers* and *Short course part-completers* categories were combined to become *Short course students*. Data has been backcast to 2020.

---

Highest current qualification level

---

**This field is contained in the following database/s:**

- Government-funded students and courses (VET) and VET in Schools (VETiS)
- Students

**Compared to:**

**Current qualification level**

The highest level qualification a student is enrolled in. Current qualification level is for all qualifications regardless of the number of students. A student can be enrolled in more than one qualification (i.e., a certificate level IV program and a certificate level III program). In the Courses, Subjects and Awards databases all qualification levels will be counted (i.e., certificate levels III and IV) whereas in the Student database only the 'Highest qualification level' will be counted (i.e., certificate level IV).

**Students and courses (VET) and VET in Schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Highest Current qualification level</b>	The level of the highest qualification in which a student is enrolled.	AQF qualification	AQF level qualifications are listed (i.e. Diploma and above, Certificate IV, Certificate III, etc., are listed) and under 'Diploma and above' qualifications such as Diplomas and Degrees are listed.	Collected in the AVETMISS field <i>Program identifier</i> from the <i>Training activity</i> file.
		Non AQF qualification	Non-AQF level qualifications are listed (i.e. 'Secondary education', 'Non-award courses' and 'Other education' are listed. A further level is available below this with qualifications such as senior secondary year levels.	

---

Highest prior education level

---

Major program field of education

**This field is contained in the following database/s:**

- Government-funded students and courses (VET) and VET in Schools (VETiS)
  - Students

**Compared to:**

**Subject field of education**

The 'Subject field of education' counts the field of education for all subjects. For example, a single program might have ten subjects/modules, so the 'Subject field of education' counts the field of education for all subjects.

If a student is enrolled in more than one program, 'Major program field of education' determines the major FOE based on the highest qualification for all those courses. For example, if a student is enrolled in a Certificate IV program with a FOE of 'Natural and physical sciences' and a certificate III program with a FOE of 'Management and commerce', 'Natural and physical sciences' is selected as the major FOE based on the higher qualification level.

**Students and courses (VET) / VET in Schools**

Major program occupation (ANZSCO) group

**This field is contained in the following database/s:**

- Government-funded students and courses (VET) and VET in Schools (VETiS)
- Students

**Compared to:**

**Program occupation (ANZSCO) group**

A student can be enrolled in more than one program. The 'Program' database counts all courses where there are enrolments regardless of the number of student numbers.

'Major program occupation (ANZSCO) group' calculates the ANZSCO based on the highest program level. For example, if a student is enrolled in a Certificate IV program with an ANZSCO of 'Managers' and a certificate III program with an ANZSCO of 'Professionals', the ANZSCO classification of 'Managers' is selected as the major program occupation based on the higher qualification level.

**Students and courses (VET) / VET in Schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Major program occupation (ANZSCO) group</b>	The primary (or most significant) occupation type that the program relates to if a student's program of study can be classified to more than one ANZSCO code.	1 - Managers	This is a five-level hierarchical structure. **Note:** This classification is based on the Australian Bureau of Statistics, *Australian and New Zealand Standard Classification of Occupations (ANZSCO)*, url: <https://www.abs.gov.au/statistics/classifications/anzsco-australian-and-new-zealand-standard-classification-occupations/2022>

From time to time this classification may change to capture new and emerging occupations. When this classification is updated, there may be a break in series and previous data will not be able to be re-created. If this occurs it should be noted that there has been a break in series due to a change in the classification.

## Major Skills Service Organisation

This field is contained in the following database/s:

- VET in Schools (ViS)
- Students

Compared to:

### Skills Service Organisation

Students can be enrolled in more than one qualification. The field 'Skills Service Organisation' (SSO) in the Programs, Subjects and Program completions databases count all qualifications regardless of the number a student is enrolled in.

The 'Major Skills Service Organisation' is determined by the highest qualification a student is enrolled in. For example, if a student is enrolled in a certificate IV program that is assigned to the 'Artibus Innovation' SSO and a certificate III program that can be assigned to the Australian Industry Standards' SSO, the 'Artibus Innovation' SSO is the 'major' SSO as the qualification is higher. If a student is enrolled in two programs of the same level the program with the highest number of hours is selected as the 'major' program and the SSO associated with this program is selected as the 'Major Service Skills Organisation.'

Students and courses (VET) and VET in Schools (Note: Not Included in the current and future databases)

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Skills Service Organisation</b>	Refers to categories of training package qualifications by their specific industry sectors. Industry skills councils represent particular industries and groups of training packages.	Artibus Innovation (construction & property services)	This is a two-level hierarchical structure. The second and most detailed level of the classification consists of the base units which are detailed qualification codes (i.e. FDF10103 - Certificate I in Food Processing).	Calculated based on the AVETMISS field <i>Program identifier</i> from the <i>Program</i> file.

Preliminary

---

**This field is contained in the following database/s:** Apprentices and trainees (A&T)

**Usage:** This field is a 'counting' field. It is contained under the 'Counting' field in the 'Fields' list. This field displays data that is submitted to the NCVER.

**See also:** **Estimates**

The NCVER is supplied data by the States/territories concerning the number of apprentices/trainees in their respective jurisdictions. The Apprentice and trainee collection is accumulative so not all contracts are reported at the same time for a given quarter. For example, using the March quarter of any year as a start the reporting of contracts will occur throughout this quarter and continue to be reported in the following June quarter.

The preliminary count displays the apprentice and trainee numbers as they are reported to NCVER and for any given quarter will change as more contracts for that quarter are reported. See: IMPORTANT NOTE FOR THIS FIELD below.

**Important information for this field:** Apprentice and trainee figures reported by NCVER are estimated. Figures are estimated because there are often long time lags in reporting information to the states and territories. The main reason for delays has been due to employers and apprentices/trainees not returning necessary paperwork to an Australian Apprenticeship Centre or to State Training Authority's within the reporting period.

**It is recommended that unless you have a specific reason to do so, you do not use this field. The NCVER does not release preliminary data in any of its statistical publications.**

Program highest funding source

**This field is contained in the following database/s:**

Government-funded students and courses (VET), Total VET students and courses (TVA) and VET in Schools (VETiS).

- Program enrolments
- Subject enrolments

**Compared to:**

**Student highest funding source**

The Student highest funding source' counts all funding sources but is grouped according to the highest source of funding for a student. For example, if a student is enrolled in two courses, one having a funding source of 'Commonwealth and state general funding', and the other 'State specific funding' both funding sources are counted but 'Commonwealth and state general funding' is the highest program funding source.

**Funding source**

The source of the funding for a subject enrolment. For students with subject enrolments in more than one funding category, a major funding source is assigned in hierarchical order (Commonwealth and state funding, Domestic full-fee paying and International full-fee paying).

**Students and courses (VET and TVA) / VET in Schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Funding source</b>	The predominant source of the funding for a program enrolment.  The major funding source is assigned in hierarchical order for students with subject enrolments in more than one funding category.	Government funding	Commonwealth and state general funding	Collected in the AVETMISS field <i>Funding source - national</i> from the <i>Training activity</i> file.
			Commonwealth specific funding (no general funding)	
			State specific funding (no Commonwealth funding)	
			Commonwealth and state specific funding (no general funding)	
		No Government funding	Only fee for service - domestic	
			Only fee for service - international	
		Other	Subject only – no qualification

Program occupation (ANZSCO) group

**This field is contained in the following database/s:**

Government-funded students and courses (VET), Total VET students and courses (TVA) and VET in Schools (VETIS).

- Program enrolments
- Program completions

**Compared to:**

**Major course occupation (ANZSCO) group**

'Major course occupation (ANZSCO) group' calculates the ANZSCO based on the highest program level. For example, if a student is enrolled in a Certificate IV program with an ANZSCO of 'Managers' and a certificate III program with an ANZSCO of 'Professionals', the ANZSCO classification of 'Managers' is selected as the major program occupation based on the higher qualification level.

In the 'Program' database, both the 'Managers' and 'Clerical and administrative workers' ANZSCO courses would be counted.

**Students and courses (VET and TVA) / VET in schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Program occupation (ANZSCO) group</b>	The intended occupational outcome of a qualification/ program.	1 - Managers	This is a five-level hierarchical structure. The fifth and most detailed level of the classification consists of the base units which are 6-digit ANZSCO.	Collected in the AVETMISS field <i>ANZSCO identifier</i> from the <i>Program</i> file.
		2 - Professionals		
		3 - Technicians and Trades Workers		
		4 - Community and Personal Service Workers		
		5 - Clerical and Administrative Workers		
		6 - Sales Workers		
		7 - Machinery Operators and Drivers		
		8 - Labourers		
		GEN codes	Includes 'General education' and 'Non-Industry specific training' at 6 digit level

Reporting period

---

**This field is contained in the following database/s:**

Apprentices and trainees (A&amp;T)

**Usage:**

This field needs to be added when creating a table. If a 'reporting period' is not added, the data obtained in the table will be the sum of all reporting periods contained in the Apprentice and trainee VOCSTATS database.

**Important information for this field:**

When counting Commencements, Completions and Cancellations and Withdrawals 'Reporting periods' can be added together. For example, 12 months ending December can be obtained by adding the March, June, September and December quarters together.

When counting In-training, 'Reporting periods' **cannot** be summed together. In-training is at a particular point in time, i.e. In-training at 31 December for the required year.

### Apprentices and trainees

Term	Definition	Classification categories	Classification sub-categories	Source

Student highest funding source

**This field is contained in the following database/s:**

Government-funded students and courses (VET) and VET in schools (VETiS)

- Students (VETiS)
- Program enrolments
- Subject enrolments

**Compared to:**

**Program highest funding source**

The 'Program highest funding source' counts all funding sources but is grouped according to the highest source of funding for the courses. For example, if a student is enrolled in two courses, one having a funding source of 'Commonwealth and state general funding', and the other 'State specific funding' both funding sources are counted but 'Commonwealth and state general funding' is the highest program funding source.

**Funding source**

The source of the funding for a subject enrolment. For students with subject enrolments in more than one funding category, a major funding source is assigned in hierarchical order (Commonwealth and state funding, Domestic full-fee paying and International full-fee paying).

**Students and courses (VET) / VET in schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Student highest funding source</b>	The predominant source of the funding for a student.	Government funding	Commonwealth and state general funding	Collected in the AVETMISS field <i>Funding source - national</i> from the <i>Training activity file</i> .
			Commonwealth specific funding (no general funding)	
	State specific funding (no Commonwealth funding)			
	Commonwealth and state specific funding – nfd (no Commonwealth funding)			
	The major funding source is assigned in hierarchical order for students with subject enrolments in more than one funding category.	No government funding	Only fee for service - domestic	
Only fee for service - international				

## Student remoteness (ARIA+) region

**This field is contained in the following database/s:**

Total VET students and courses (TVA), Government-funded students and courses (VET) and VET in schools (VETiS)

- Students
- Program enrolments
- Subject enrolments
- Program completions

**Students and courses (VET) / VET in schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Student remoteness (ARIA+) region</b>	The degree of remoteness of a location in terms of the ease or difficulty people face in accessing services in non-metropolitan Australia.	Major cities Inner regional Outer regional Remote Very remote Outside Australia Not known	n/a	Calculated based on the AVETMISS field <i>Postcode</i> from the <i>Client</i> file.

**Note:** Student remoteness (ARIA+) is based on ABS ASGS SA2 regions (which are derived from the AVETMISS fields *Postcode* and *Suburb* from the *Client* file). Data for 2011 onwards are based on the 2011, 2016 and 2021 ARIA+ data releases to form a time series.

Student remoteness data for 2006-2010 are based on ARIA + scores using ABS ASGC Statistical Local Areas (which are derived from the AVETMISS fields *Postcode* and *Suburb* from the *Client* file).

The ASGC divides Australia into six Remoteness Areas and is used for collection and dissemination of geographically classified statistics. It groups locations together into comparative classes of remoteness so that data can be collected, analysed and disseminated for broad regions which are more or less remote.

More information on Remoteness Areas is available from the following link:

<https://www.abs.gov.au/statistics/standards/australian-statistical-geography-standard-asgc-edition-3/jul2021-jun2026/remoteness-structure/remoteness-areas>

Student remoteness region

**This field is contained in the following database/s:**

- Government-funded students
  - Total VET students

**National Student Outcomes Survey (Student attributes)**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Student remoteness region</b>	The degree of remoteness of a location in terms of the ease or difficulty people face in accessing services in non-metropolitan Australia.	Major cities/inner regional/outer regional	Major city	National Student Outcomes Survey (Government-funded students and Total VET students)
			Inner regional	
			Outer regional	
		Remote/very remote	Remote	
			Very remote	
		Unknown	Unknown	
	Not stated	Not stated		

**Note:** ARIA+ is an index of remoteness derived from measures of road distance between populated localities and service centres. These road distance measures are then used to generate a remoteness score for any location in Australia.

The ASGC divides Australia into six Remoteness Areas and is used for collection and dissemination of geographically classified statistics. It groups locations together into comparative classes of remoteness so that data can be collected, analysed and disseminated for broad regions which are more or less remote.

From the 2012 survey year, Student remoteness (ARIA+) is based on ABS ASGS SA2 regions (which are derived from the AVETMISS fields Postcode and Suburb from the Client file)

In 2019, the 2016 ARIA classifications were used, and data were backdated for the 2017 and 2018 survey years.

## Student SA2

**This field is contained in the following database/s:**

Total VET students and courses (TVA), Government-funded students and courses (VET) and VET in schools (VETiS).

- Students (VETiS)
- Program enrolments
- Subject enrolments
- Program completions

**Usage:**

There are 3 separate SA2 fields in the TVA, VET and VETiS database.

- SA2 2011 – Displays data for the years 2011-2015
- SA2 2016 – Displays data for the years 2016-2020
- SA2 2021 – Displays data for 2021 onwards

**Students and courses (VET and TVA) / VET in schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Student SA2</b>	Identifies the Australian Bureau of Statistics Statistical Area 2 (SA2) of the student's usual place of residence.	New South Wales Victoria Queensland South Australia Western Australia Tasmania Northern Territory Australian Capital Territory Other	This is a four-level hierarchical structure. The fourth and most detailed level of the classification consists of units which are 9-digit ABS statistical area 2 identifiers.  1st Level – State and Territory (S/T)  2nd Level – Statistical area level 4 (SA4)  3rd Level – Statistical area level 3 (SA3)  4th Level – Statistical area level 2 (SA2)	Calculated based on the AVETMISS field <i>Postcode</i> and <i>Suburb</i> from the <i>Client</i> file.

**Note:**

Student SA2 is based on the Australian Bureau of Statistics, Australian Standard Geography Standard (ASGS): url: <https://www.abs.gov.au/statistics/standards/australian-statistical-geography-standard-asgs-edition-3/latest-release>.

SA2 2011 is reflected in 2011-2015 data

SA2 2016 is reflected in 2016-2020 data

SA2 2021 is reflected in data from 2021.

## Subject field of education

**This field is contained in the following database/s:**

Government-funded students and courses (VET), Total VET students and courses (TVA) and VET in schools (VETiS).

- Subject enrolments

**Compared to:****Major program field of education**

A student can be enrolled in more than one program. The 'Major program field of education' counts the highest field of education (FOE) of all courses a student may be enrolled in. For example, if a student is enrolled in a Certificate IV program with a FOE of '01 - Natural and physical sciences' and a Certificate III program with a FOE of '06 - Health', '01 - Natural and physical sciences' will be counted as the 'Major program field of education' as the qualification is higher.

'Subject field of education' counts the FOE for all subjects regardless of the program FOE.

**Students and courses (VET and TVA) / VET in schools**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Subject field of education</b>	Identifies the field of education for subject enrolments	01 - Natural and physical sciences	This is a three-level hierarchical structure. The third and most detailed level of the classification consists of the base units which are 6-digit fields of education	Collected in the AVETMISS field <i>Subject Field of education identifier</i> from the <i>Subject</i> file
		02 - Information technology		
		03 - Engineering and related technologies		
		04 - Architecture and building		
		05 - Agriculture, environmental and related studies		
		06 - Health		
		07 - Education		
		08 - Management and commerce		
		09 - Society and culture		
		10 - Creative arts		
		11 - Food, hospitality and personal services		
		12 - Mixed field programmes		

**Note:** Subject field of education is based on the Field of Education (FOE) at the detailed level (6-digit) which is one part of the Australian Bureau of Statistics Standard Classification of Education (ASCED), url: <https://www.abs.gov.au/statistics/classifications/australian-standard-classification-education-ascad/latest-release>.

## Subject result

Total VET FYTE (Full-Year Training Equivalents)

**This field is contained in the following database/s:**

Total VET students and courses (TVA).

- Students
- Program enrolments
- Subject enrolments

**Usage:**

This field is a 'counting' field. It is contained under the 'Counting' field in the 'Fields' list. Selecting this field will display the number of Full-Year Training Equivalents (FYTEs) and can be cross-tabulated with other fields.

**Total VET students and courses**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Total VET FYTE</b>	Measures the training activity undertaken by a student on a full-time basis for one year	n/a	n/a	Calculated based on <i>Hours of delivery</i> (720 hours = 1 FYTE)

**Note:** For further information on 'Counting' fields please refer to 'Counting' in this document.

---

---

 Total VET hours
 

---

**This field is contained in the following database/s:**

Total VET students and courses (TVA).

- Students
- Program enrolments
- Subject enrolments

**Usage:**

This field is a 'counting' field. It is contained under the 'Counting' field in the 'Fields' list. Selecting this field will display the number of hours for students, courses or subjects. It can be cross tabulated with other fields.

### Total VET students and courses

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Total VET hours</b>	A count of hours associated with a student, program or subject	n/a	n/a	

**Note:**

In the 'Students' database 'Total VET hours' are the hours by student numbers, in the 'Programs' database hours are the hours by program enrolments and in the 'Subjects' database hours are the hours by subject enrolments.

Respondents could choose more than one option.

---

 Training contract status
 

---

This field is contained in the following database/s:

Apprentices and trainees (A&T)

**Apprentices and trainees**

<b>Term</b>	<b>Classification categories</b>	<b>Definition</b>	<b>Source</b>
<b>Training contract status</b>	Commenced	When an apprenticeship/traineeship training contract started in a given period.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.
	Recommended	When an apprenticeship/traineeship training contract restarted in a given period.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.
	In-training	When an apprenticeship/traineeship training contract were active at the end of a particular quarter.	Derived
	Completed	When an apprenticeship/traineeship training contract were successfully completed in a given period.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.
	Cancellations/ Withdrawals	When an apprenticeship/traineeship training contract has been terminated prior to successful completion in a given period. Includes contracts with a status of transferred.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.
	Expired	When an apprenticeship/traineeship training contract has reached the expected term of their contract without completing or when the contract has been terminated.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.
	Suspended	When an apprenticeship/traineeship training contract has been suspended in a given period.	Based on the AVETMISS field <i>Training contract status identifier</i> from the <i>Training contract transaction</i> file.

---

---

 Training duration
 

---

This field is contained in the following database/s:

Apprentices and trainees (A&T)

### Apprentices and trainees

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Training duration</b>	For commencements and recommencements, duration refers to the intended amount of time that apprentices/trainees take to complete their training contract.  For completions, duration refers to the actual amount of time taken by the apprentice or trainee to finish the training contract.  For cancellations/withdrawals, duration refers to the amount of time until an apprentice or trainee cancels or withdraws from their contract.	Up to 1 year	Less than 1 month – 12 months	Calculated based on the AVETMISS fields <i>Date of training contract commencement</i> , <i>Date of training contract completion</i> , <i>Training contract status identifier</i> and <i>Date of transaction</i> from the <i>Training contract transaction</i> file.
		Over 1 and up to 2 years	13 months – 24 months	
		Over 2 and up to 3 years	25 months – 36 months	
		Over 3 and up to 4 years	37 months – 48 months	
		Over 4 years	Over 49 months

 Type of accreditation
 

---

**This field is contained in the following database/s:**

Government-funded students and courses (VET)

- Program enrolments
- Subject enrolments
- Program completions

Apprentices and trainees (A&amp;T)

**Compared to:****Major type of accreditation**

'Major type of accreditation' only counts the student's highest program or qualification. For example, if a student is enrolled in a Certificate IV program and a certificate III program the 'Major type of accreditation' is based on the higher qualification level.

A student can be enrolled in more than one program/qualification. 'Type of accreditation' counts all courses/qualifications regardless of how many a student is enrolled in.

**Students and courses (VET)**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Type of accreditation</b>	The type of accreditation for a student's qualification.	Training package qualifications	This is a three-level hierarchical structure. The third and most detailed level of the classification consists of the base unit's qualification codes (e.g. AUM20100)	Derived using the AVETMISS field <i>Program identifier</i> from the <i>Program</i> and file
		National accredited qualifications		
		National accredited skills sets		
		Locally accredited qualifications		
		Locally accredited skills sets		
		Higher level qualifications		
		Not assigned to a training package		
Other/Not known				

## Apprentices and trainees

---

 Workplace postcode region
 

---

**This field is contained in the following database/s:**

Apprentices and trainees (A&amp;T)

**Compared to:**

The 'Workplace postcode region' is calculated based on the workplace postcode. This compares to:

**Client postcode region:**

'Client postcode region' is calculated based on the client's postcode of usual residence.

**Employer postcode region:**

'Employer postcode region' is calculated based on the postcode where the employer is based.

### Apprentices and trainees

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Workplace postcode region</b>	Identifies the regional physical location or postal address of the workplace	Within state	n/a	Calculated based on the AVETMISS fields <i>Postcode – [Workplace]</i> from the <i>Training contract transaction</i> file.
		Interstate		
		Outside Australia		
		Not known		

Workplace remoteness (ARIA+) region

**This field is contained in the following database/s:**

Apprentices and trainees (A&T)

**Compared to:**

The 'Workplace remoteness (ARIA+) region' is calculated based on the workplace postcode. This compares to:

**Client remoteness (ARIA+) region:**

'Client remoteness (ARIA+) region' is calculated based on the client's postcode of usual residence.

**Apprentices and trainees**

Term	Definition	Classification categories	Classification sub-categories	Source
<b>Workplace remoteness (ARIA+) region</b>	The degree of remoteness of a location in terms of the ease or difficulty people face in accessing services in non-metropolitan Australia.	Major cities	n/a	Calculated based on the AVETMISS field <i>Postcode – Workplace</i> from the <i>Client</i> file.
		Inner regional		
		Outer regional		
		Remote		
		Very remote		
		Outside Australia		
		Not known		

**Note:** Using the Australian Standard Geographical Classification (ASGS), postcodes are assigned to Remoteness Areas based on ARIA+ scores for postcodes.

ARIA+ is an index of remoteness derived from measures of road distance between populated localities and service centres. These road distance measures are then used to generate a remoteness score for any location in Australia.

The ASGS divides Australia into seven Remoteness Areas and is used for collection and dissemination of geographically classified statistics. It groups locations together into comparative classes of remoteness so that data can be collected, analysed and disseminated for broad regions which are more or less remote.

The NCVET will not release any information that identifies or could be used to identify individual clients.

## Workplace SA2 2011

This field is contained in the following database/s:

Apprentices and trainees (A&T)

## Apprentices and trainees

Term	Definition	Classification categories	Classification sub-categories	Source	
<b>Workplace SA2 2011</b>	Identifies the Australian Bureau of Statistics Statistical Area 2 (SA2) of the physical location or postal address of the workplace.	New South Wales	This is a four-level hierarchical structure. The fourth and most detailed level of the classification consists of units which are 9-digit ABS statistical area 2 identifiers.
