2023	9 490	6 735	6 640	27 480
2024	9 660	4 945	6 870	24 990

Additional information

1. Unless stated otherwise, data are derived from the latest National Apprentice and Trainee Collection (no. 121, September 2024 estimates), which is compiled under the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS) for Apprentice and Trainee Collection Specifications, Release 7.0, October 2015.
2. Due to the delay in time between an event (commencement, completion, etc.) occurring and the reporting of that event to NCVER, NCVER estimates the most recent figures. The estimation method involves weighting recently processed numbers based on average reporting lags. As estimates are revised for up to seven quarters, figures for the last two years may differ from those published in earlier or subsequent reports. The final counts are those submitted by jurisdictions. Further details on the methodology can be found in the Estimation of apprentice and trainee statistics technical paper.
3. The COVID-19 pandemic in Australia brought about significant uncertainty for individuals, businesses, and governments. The resulting suspension of normal economic activities, combined with various government and economic interventions, has impacted apprentice and trainee numbers. Therefore, caution should be exercised when interpreting and comparing data from 2020 onwards.
4. **In-training** figures represent the number of apprenticeship and traineeship training contracts where the apprentice or trainee is actively training under the terms of their contract, and who have not completed, cancelled or withdrawn from their training, or had their training contract expired. The figure reflects the number of active contracts at a given point in time (at the end of the quarter), and therefore in-training figures cannot be cumulated over time. For this reason, quarterly comparisons are equivalent to 12-months ending comparisons, as they both represent the changes as at 30 June from one year to the next.
5. Note that the percentages presented in this product are reported to one decimal place. All other numbers, after aggregation, have been rounded to the nearest five. Rounding can lead to instances where the numbers in the body of a given table might not add to the rounded totals.
6. Unknown data have not been reported in any tables, whereas the total includes all contracts, including those with unknown status. Hence, some figures in the tables may not sum to the total.
7. Whilst the report is limited to data on contract commencements, in-training, completions and cancellations/withdrawals, data on contract recommencements, expiries and suspensions are available in VOCSTATS.
8. As the vocations approved to be under an apprenticeship or traineeship training contract are not consistent across all jurisdictions, NCVER has adopted a Trade/Non-trade categorisation for the purpose of the National Apprentices and Trainees Collection with 'Trades' classified as all occupations listed under ANZSCO major group '3-Technicians and Trades workers' and 'Non-trades' classified as all other major occupations groups 1-2 and 4-8 (Occupations are classified using the ANZSCO - Australian and New Zealand Standard Classification of Occupations, 2022 Australian Update).

This infographic is drawn from *Australian vocational education and training statistics: apprentices and trainees 2024 — June quarter*, NCVER, Adelaide.
